# SAME STORY,

As we prepared for the arrival of a new school year, we were anxious to embark on the different, turn-of-year would take us on. We would walk through the same hallways and experience the same story from our different perspectives. We opened up a blank page, and soon our story was ready to begin. The student body created different adventures when members of the junior and senior classes bought baby powder to throw up at the first home football game on September 4. Different efforts in the room paid off for Sophia Gilbert '18 when she was named a Commended Student in the 2018 National Merit Scholarship Program. Different faces were shown when students from each grade went to events to cheer on and support their peers. The varsity volleyball team overcame different challenges when the team decreased in numbers and were left with two freshmen, four sophomores, eight juniors and one senior. Jennifer McKinney, Different Perspectives, were displayed when the marching band swept the competition at Mount Pleasant on September 15 and earned champions of class 3A, best drum majors, best color guard, best hornline, and best percussion. The year was ours to conquer, and we began to write the same story from a different angle.

# DIFFERENT ANGLE.
